Experience

Sigma Computing (New York, NY)   *October 2022 - February 2024*
GRC Cyber Analyst
- Evaluated findings from vulnerability scans and worked with the Engineering Team to remediate.
- Maintained third party assurance program via compliance/security documentation and direct client interface.
- Reviewed vendors for allow list via ticketing system and automation with vendor management platform.
- Collected and prepared evidence for compliance audits including SOC 2, ISO 27001, and HIPAA.

Emagine IT (Remote)   *June 2021 - October 2022*
Cybersecurity Consultant
- Assessed clients' security posture by interviewing SMEs and evaluating documentation.
- Advised clients' on certification process for multiple frameworks including FedRAMP and HITRUST.
- Create documentation packages including SSPs for clients undergoing FedRAMP and HITRUST audits.

Shipedge (Durham, NC)   *March 2019 - January 2020*
Technical Support Specialist
- Provided primary point of client support via phone, web chat, and Freshdesk tickets.
- Investigated incoming tickets to clarify and troubleshoot before solving with the engineering team.
- Continually improved internal and external knowledge bases while training new and ongoing clients.

Bartending, Various (NC, TX)   *October 2017 - June 2021*
Bar Manager/Bartender
- Moved from barback to bartender to bar manager in about two years.
- Variety of experience including craft cocktail bar, brewery, and fine dining.

Education/Certifications

BA in Psychology - *University of Texas*		August 2012
Certified Solutions Architect - *AWS*		February 2024
Azure Fundamentals - *Microsoft*		March 2023
Security+, CySA+ - CompTIA	December 2020/June 2022	
Baltimore Cyber Range		April 2022
Junior Penetration Tester - *INE Security*		March 2022

Skills

Anvilogic, AWS, Azure, Bash, Burp Suite, Crowdstrike, Drata, Kali, Lacework, Metasploit, Nessus, Nmap, OneTrust, OWASP ZAP, Python, SafeBase, Scripting, SIEM, Splunk, SQL, Vulnerability Management, Wireshark

Compliance Frameworks: CIS, FedRAMP, HIPAA (Security), HITRUST, ISO 27001, NIST 800-53, PCI/DSS, SOC2

Cloud
- Oversaw vulnerability management project of AWS Partner Program.
- Automated alert pipeline via API to forward GuardDuty alerts to Slack via Lambda, deployed via CloudFormation.
- Certifications in Azure and AWS, with a recent completion of AWS Solutions Architect Associate.

Pentesting
- Junior Penetration Tester certification (eJPT)
- Completed over 150 TryHackMe labs using numerous network and security tools such as Burp, Nmap, netcat, John the Ripper, Hydra, OWASP ZAP, ffuf, dirb, etc.
- Currently studying for OSCP with a planned exam date of 5/31/24.

SIEM/EDR
- Evaluated Crowdstrike alerts for escalation during ad hoc on-call situations.
- Used Splunk to analyze a given lab dataset and investigate security incidents.
- Used Wireshark to filter and rebuild images found in captured web traffic packets, and analyze and validate findings from Nmap.
